The Pueblo of Picuris (Pueblo) is in northern New Mexico, situated on the western slopes of the Sangre de Cristo Mountains, in the area known as the “Hidden Valley” 24 miles south of Taos Pueblo and 60 miles north of the city of Santa Fe at an elevation over 7,000 feet. Established in 1250 CE, the Pueblo was one of the largest Pueblos in New Mexico, however it is now one of the smallest with approximately 1,801 inhabitants. The Pueblo is a member of the Eight Northern Pueblo’s, is a census-designated place (CDP), and is a federally recognized tribe of Native American Pueblo people.

The Pueblo’s goal is to ensure that the Pueblo, its Tribal members, and the surrounding communities have reliable and affordable qualifying broadband service.

To address this goal, the Pueblo is applying for State of New Mexico Office of Broadband Access and Expansion GWEP Planning/Design grant in the amount of \$100,000 to develop engineering construction packages for middle mile, last mile and fixed wireless connectivity to unserved/underserved Tribal households not funded under the National Telecommunication and Information Administration’s Tribal Broadband Connectivity Round 1 funding, and non-Tribal households and businesses located within the exterior boundaries of the Pueblo.

Specifically, the Pueblo intends to develop the Pueblo of Picuris Internet Service Program (ISP) within its Utility Department and will provide internet service to the following number of households located within the Pueblo’s exterior boundaries.

- Pueblo of Picuris - 80

- Penasco - 258
- Chamisal - 125
- Rio Lucio - 195
- Vadito - 118

Funding will be utilized to provide: preliminary alignment and construction alternatives and construction packages; identification of ownership of existing rights-of-way; identification of National Environmental Protection Agency requirements; identification of waterway crossings (Section 404 requirements); Agency coordination including but not limited to the State of New Mexico Department of Transportation, United States Government, and Taos County; development of statement of probable cost documents for construction alternatives; statement of recurring costs for construction elements such as pole attachments and annual maintenance costs; detailed equipment listings and pricing; attendance at all Owner/Contractor meetings; and, estimated construction schedules for each unserved or underserved area listed above.

Project deliverables include Preliminary Design (50%) Engineering Construction package and a Final Design (95%) Engineering Construction package for each of the unserved areas listed above.
