- A. Default. The Department may unilaterally terminate this Agreement for default by Grantee (“**Event of Default**”) as authorized by, and subject to the requirements of § 1.12.21.14 NMAC.
- B. Remedies. Upon the occurrence of any Event of Default and Grantee’s failure to cure said Event of Default within the applicable cure period as provided by § 1.12.21.14 NMAC, or in the event of termination by the Office of Broadband, the Office of Broadband may, in its sole discretion, exercise any right, or pursue any remedy, authorized by state or federal law, or the terms of this agreement. Such rights and remedies may include, but are not limited to, the following actions:
1. Withhold any or all payments or disbursements of the Grant to be made under this Agreement, in which event Grantee shall have no right, title, or interest in or to any of the undisbursed Grant funds;
 2. Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance;
 3. Treat the Agreement as breached and pursue any remedies at law or in equity, or both; or
 4. Demand repayment of all or a portion of the Grant funds disbursed to Grantee, plus all costs and reasonable attorney’s fees incurred by the Department in recovery proceedings.

ARTICLE 16 – CONFLICT OF INTEREST

Grantee warrants that it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with Grantee’s performance under this Agreement. Grantee certifies that it has followed the requirements of the Governmental Conduct Act, NMSA 1978, §§ 10-16-1 – 10-16-18, regarding contracting with a public officer, state employee or former state employee.

ARTICLE 17 – OWNERSHIP AND PUBLICATION OF MATERIALS

All reports, information, data, and other materials prepared by Grantee or any of its contractors, subcontractors, or subrecipients in furtherance of this Agreement are the property of Grantee and the Office of Broadband. Both Grantee and the Office of Broadband have the royalty-free, nonexclusive, and irrevocable right to reproduce, publish, authorize others to use, and to otherwise use, in whole or part, such property and any information relating thereto. No material produced in whole or part under this Agreement may be copyrighted or patented in the United States or in any other country without the prior written approval of both the Office of Broadband and Grantee.

ARTICLE 18 – INSURANCE REQUIREMENTS

- A. Commercial Liability Insurance. At its sole cost and expense, Grantee shall maintain occurrence-based general liability coverage with minimum limits of \$1 million per

occurrence and \$2 million aggregate per year. Grantee shall also require that any contractors performing construction services under this Agreement shall maintain the same commercial liability coverage as Grantee is required to maintain hereunder.

- B. Professional Liability Insurance. Grantee and any licensed agent or contractor who provides professional engineering services within the scope of his or her license to Grantee in connection with the Project shall procure and maintain professional liability (errors & omissions) coverage with a limit of \$2,000,000 per claim. If this insurance is written on a “claims made” basis, then the policy shall provide “tail coverage” for claims asserted within three (3) years after the earlier of the date of Substantial Completion or the date of termination of this Agreement.

- C. General Insurance Requirements. Insurance coverages shall be provided by a company with an A.M. Best rating of A- or better. All certificates and endorsements must be received by the Office of Broadband prior to beginning any activity provided for under this Agreement. Grantee must notify the Office of Broadband immediately of any material change in insurance coverage, such as changes in limits, coverage, or change in status of policy. The Office of Broadband reserves the right to request complete copies of Grantee’s insurance policy, including endorsements, at any time.

ARTICLE 19 – DEFENSE AND INDEMNIFICATION

Grantee will defend, indemnify and hold harmless the Office of Broadband, and the State of New Mexico, and their officers, employees and agents free from all actions, proceedings, claims, demands, costs, damages, attorneys’ fees and all other liabilities and expenses of any kind from any source which may arise out of Grantee’s performance of this Agreement, which is caused, or alleged to be caused, by an act or omission of Grantee or of any agent of Grantee in the performance of this Agreement. In the event that any action, suit or proceeding related to the performance of this Agreement is brought against Grantee and/or any agent of Grantee, Grantee shall, within two (2) Business Days after Grantee receives notice thereof, notify the Department’s liaison in writing.

ARTICLE 20 – REPRESENTATIONS AND WARRANTIES

Recognizing that the Department is relying hereon, Grantee represents and warrants, as of the Effective Date of this Agreement, as follows:

- A. Organization; Power, Etc. Grantee: (1) is duly organized and validly existing under the laws of the State of New Mexico; (2) is duly qualified to do business and is in good standing in the State of New Mexico; (3) has legal power to own and operate its assets and to carry on its business and to enter into and perform its obligations under this Agreement; (4) has duly and lawfully obtained and maintained all material licenses, certificates, permits, authorizations and approvals necessary to conduct its business or required by applicable laws; and (5) is eligible to obtain the financial assistance from the Department contemplated by this Agreement.

- B. Authority. The execution, delivery and performance by Grantee of this Agreement and the performance of the transactions contemplated hereby and thereby have been duly authorized by all necessary actions and do not violate any provision of law or any charter, articles of incorporation, organization documents or bylaws of Grantee or result in a breach of, or constitute a default under, any agreement, security agreement, note or other instrument to which Grantee is a party or by which it may be bound. Grantee has not received any notice from any other party to any of the foregoing that a default has occurred or that any event or condition exists that with the giving of notice or lapse of time or both would constitute such a default.
- C. Consents. No consent, approval, authorization, order, filing, qualification, license, or permit of any governmental authority is necessary in connection with the execution, delivery, performance, or enforcement of this Agreement, except such as have been obtained and are in full force and effect.
- D. Binding Agreement. Each part of this Agreement is, or when executed and delivered will be, the legal, valid, and binding obligation of Grantee, enforceable in accordance with its terms, subject only to limitations on enforceability imposed in equity or by applicable bankruptcy, insolvency, reorganization, moratorium, or similar laws affecting creditors' rights generally.
- E. Compliance with Applicable Laws. Grantee will comply with all federal, state, and local laws, rules, regulations, ordinances, codes and orders materially applicable to the performance and administration of this Agreement.
- F. Litigation. There is no pending or threatened legal, arbitration or governmental actions or proceedings to which Grantee is a party or to which any of its property is subject which, if adversely determined, could have a material adverse effect on its ability to perform its obligations hereunder.
- G. Information Submitted with Application. All information, reports, and other documents and data submitted to the Office of Broadband in connection with Grantee's Application were, at the time the same were furnished, complete, and correct in all material respects. Any financial statements or data submitted in connection with Grantee's Application present fairly, in all material respects, the financial position of Grantee and the results of its operations in conformity with standard accounting practices. Since the date thereof, there has been no material adverse change in the financial condition or operations of Grantee.

Except as specifically authorized in writing in advance by the Office of Broadband, all facilities, materials, equipment, supplies, replacements and all other tangible real or personal property procured for the Project shall not, at the time Grantee submits a Request for Payment to the Office of Broadband for such items, be subject to any conditional sales agreement, mortgage, bailment lease or other agreement reserving to the seller any right, title or lien.

ARTICLE 22 – DEBARMENT

Grantee certifies and agrees to ensure during the term of this Agreement that neither it nor its principals, contractors, subcontractors, or subrecipient entities are debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this Agreement by any governmental department or agency.

ARTICLE 23 – FORCE MAJEURE

Neither Party will be liable for damages or have any right to terminate this Agreement for any delay or Default in performing hereunder in the event such delay or Default is caused by conditions beyond the Party's control including, but not limited to Acts of God, government restrictions (including the denial or cancellation of any export or other necessary license), war, insurrection and/or any other cause beyond the reasonable control of the Party whose performance is affected thereby.

ARTICLE 24 – RECORD RETENTION AND DESTRUCTION CLAUSE

Pursuant to the Family Educational Rights and Privacy Act, 20 U.S.C. §§ 1232(g)–(h) and its Regulations, 34 C.F.R. Part 99, Grantee has a legitimate educational interest in providing broadband connectivity to the homes of eligible student and faculty households. The Office of Broadband has executed a Memorandum of Understanding with the Public Education Department (PED) that authorizes PED to release to OBAE the residential addresses of students, staff, and faculty who attend or are employed at schools that are beneficiaries of a Student Connect grant.

This Agreement permits Grantee access to Personally Identifiable Information, provided to Grantee by the Office of Broadband, the Public Education Department, or Ohkay Owingeh Community School that is necessary to ensure broadband connectivity to the homes of eligible student and faculty households. Grantee shall ensure that records containing Personally Identifiable Information are maintained in a manner that does not permit the publication or reproduction of Personally Identifiable Information or documents containing Personally Identifiable Information. Grantee is required to destroy all records containing Personally Identifiable Information on July 1, 2028. Failure to destroy records containing Personally Identifiable Information on July 1, 2028, may result in a Student or a Family Member enforcing rights available to them under the Family Educational Rights and Privacy Act or other applicable federal or state law.

ARTICLE 25 – PROHIBITION AGAINST SALE OR DISCLOSURE OF PERSONALLY IDENTIFIABLE INFORMATION

Grantee shall not sell, rent, lease, publish, or otherwise transfer or disclose any Personally Identifiable Information of a Student or a Family Member that is obtained as a result of this Agreement.

The provisions of this Agreement are severable, and in the event for any reason, a clause, sentence or paragraph of this Agreement is determined to be invalid by a court, agency or commission having jurisdiction over the subject matter hereof, such invalidity will not affect the other provisions of this Agreement, which will be given effect absent the invalid provision.
- E. Headings. Any and all headings within this Agreement are inserted for convenience and ease of reference and will not be considered in the construction or interpretation of any article, section or provision of this Agreement. Numbered or lettered provisions, sections and subsections contained herein refer only to provisions, sections and subsections of this Agreement unless otherwise expressly stated.
- F. Dispute Resolution. In the event dispute arises between the Parties, either Party may send a letter to the other Party requesting the other Party to enter into a dispute resolution process, such as mediation or arbitration, in accordance with NMSA 1978, §§ 12-8A-1 – 12-8A-3.

Exhibit A - Scope of Work
[Amendment 1]**

Applicant Information	
Organization Legal Name	Ohkay Owingeh
Project Name	Internet Integrated Education
Project Number	STUC-25-002

Solution Overview	
<p>Ohkay Owingeh (Ohkay) is a Federally recognized tribe as listed in the Department of the Interior – Bureau of Indian Affairs published document (86 FR 7554) and is in Rio Arriba County, New Mexico, with a southern exterior boundary contiguous with the city of Espanola. Ohkay is a Federally Census Designated Place.</p>	
<p>The Ohkay Education Division oversees the Ohkay Owingeh HeadStart and Community School (Schools), which are part of the Ohkay Owingeh community school district, whose mission is to <i>“provide an environment which will nurture the most positive growth of all learners. The individual’s unique talents, culture, language, traditions, intellectual and physical abilities will be acknowledged and used to promote the development of skills, enabling the learner to make wise decisions, assuring success in their personal world and the community”</i>.</p>	
<p>The Schools provide educational instruction for Tribal students from HeadStart through the 6th grade as follows:</p>	
<u>Grade/Age Level</u>	<u>Enrollment</u>
Head Start (3-5 year olds)	36
Kindergarten (5-6 year olds)	25
1st Grade (6-7 year olds)	23
2nd Grade (7-8 year olds)	36
3rd Grade (8-9 year olds)	32
4th Grade (9-10 year olds)	30
5th Grade (10-11 year olds)	35
6th Grade (11-12 year olds)	35
<p>In addition, Ohkay has 251 students enrolled in 7th through 12th grades, and 52 college students registered within its Tribal Education Programs.</p>	
<p>As reported by eLearning Industry (July 6, 2023), <i>“The internet has revolutionized education, transforming learning in the digital age through enhanced access to knowledge and new learning opportunities. The Internet has impacted education by providing access to knowledge, collaborative learning, personalized learning, enhanced research capabilities, and providing a global perspective and cultural exchange.</i></p>	

Due to the internet's radical changes in education, a new era of learning in the digital age has begun. It has improved research capacities, promoted cooperation, widened access to knowledge, and expanded personalized learning. Additionally, it has made it possible for cross-cultural interaction and worldwide linkages, enabling pupils to flourish in a linked world. As technology develops, internet service providers are increasingly important in ensuring educational institutions have dependable, fast internet connectivity to use digital education's advantages fully”.

In addition, the Broadband Search (April 18, 2024) article states, “*To thrive in this digital era of learning, individuals must prioritize digital literacy skills. The ability to critically evaluate online content, discern credible sources, and navigate the vast information landscape is essential. It is the foundation upon which informed decision-making and meaningful learning experiences are built”.*

While the necessity for safe, reliable broadband service is a critical and important factor in providing learning opportunities, the Ohkay Owingeh school community has one-hundred eighty seven (187) Tribal learner and educator’s homes that have **unreliable or no internet** infrastructure for remote learning and teleworking capabilities.

To address the fact that unreliable or no internet infrastructure exists for one-hundred eighty-seven (187) Tribal learner homes and educator’s homes, the Ohkay Tribal Council authorized, via Resolution #2024-32, the submission of an Office of Broadband Access and Expansion Student Connect grant application for a fixed wireless broadband **Internet Integrated Education Project** (Project).

The stated goal of the Project is to “***bring safe and reliable broadband service to one hundred eighty-seven (187) student learner and tribal educator homes and increase the adoption and use of broadband in learning environments.***” In addition to providing reliable broadband service, the Project will provide three (3) years of no-cost internet service for the connected households with a minimum speed of 100/20mbs [download/upload].

The Project will be developed by TruNet Internet Services, the current Internet Service Provider for Ohkay, and will encompass the following elements:

- Construction of a New Broadband Tower
- Installation of CBRS 3 GHz Tarana Tower Equipment
- Installation of CBRS 3 GHz Tarana Premise Equipment

The Project can be initiated and completed by June 30, 2026, with the installation of the tower, equipment (tower and premise) and testing.
